The Phylogeny of Sino-Tibetan

Thursday, September 26, 2024, 16:15–17:45

University of Zurich, Institute of Asian and Oriental Studies, Room RAA E-29, Rämistrasse 59, 8001 Zürich

Public Lecture by Prof. David Bradley, La Trobe University, Australia

The talk will discuss the phylogeny of the Sino-Tibetan languages over the last 7000 years from historical linguistic, archaeological, genetic and paleoclimate perspectives. Data will include etyma for domestic

animals and cultivated plants reconstructed for various stages of Proto-Sino-Tibetan and Proto-Tibeto-Burman, the ancient distribution of these animals and plants, ancient genomes and ancient climate changes.
